MS society – South and Mid wales

We were able to donate three months free mobile data services and subsidise the provision of mobile tablets

https://www.mssociety.org.uk/contact-us/wales

We helped MS society in South and mid Wales to stretch their budget a lot further than they expected. Providing subsidised Samsung tablets and free data plans to provide 20% more tablets within their budget that they expected.

Again this was introduced to us by the Wales Co-op digital inclusion team and we worked with Halo Leisure (a social enterprise and registered charity) to deliver the tablets and mobile data sims to Sian Tucker at the MS society.
